PROFILE SUMMARY

Enthusiastic and results-oriented Web Developer with more than 1 year of hands-on experience at Dented Code, specializing in full-stack development using React.js, Node.js, and MongoDB. Proven ability to design, build, and maintain scalable and user-friendly web applications. Adept at translating business requirements into technical solutions and passionate about clean, efficient code and modern web practices. Seeking a challenging role where I can contribute my skills in front-end and back-end development to drive impactful digital solutions.

WORK EXPERIENCE

Dented Code

JAN 2024- PRESENT

Fullstack Developer

- Collaborated with senior developers to design and develop responsive web applications using React.js, Node.js, and MongoDB.
- Integrated RESTful APIs for seamless data handling and implemented best practices in debugging, testing, and version control using Git.
- Participated in real-world project development, enhancing deployment skills with tools like Docker and Visual Studio Code.
- Contributed to scalable, maintainable codebases and strengthened proficiency in full-stack development workflows.
- Key Result: Built a solid foundation in modern web development and contributed effectively to live production projects.

Securemation Consulting

JUL 2023 - SEP 2023

Web Developer

- Independently designed and developed a web-based Data Flow Diagram (DFD) application using React.js.
- Implemented advanced features such as drag-and-drop interface, questionnaire-to-diagram generation, and cross-platform import/export capabilities.
- Enabled users to save diagrams in JSON format and reload or download them as needed.
- Key Result: Delivered a fully functional and user-friendly application that met all project requirements, completing the internship successfully as part of a Professional Year program.
